## The Faith Communities Initiative

### INSIDE THIS ISSUE:

**FCI** Initiative was aimed at  
Enhancing access to HIV  
and related services  
especially to men and  
pediatrics and  
Access to justice for  
children

The champions reached 160,000 people overall, through the radio media, social media and also through congregational and community mobilized moments.

The project was implemented through the religious leaders who were trained as champions. They reached the target vulnerable groups, i.e. the youth, men and pediatrics with key HIV and related messages, as well as HIV and related services
